Artwork - Care For Country by Maggie-Jean Douglas (Gubbi Gubbi)

When creating Care for Country I kept in mind that this meant spiritually, physically, emotionally, socially and culturally - I chose to create a bright and vibrant artwork that included the different colours of the land but showed how they come together in our beautiful country and to make people feel hopeful for the future. I've included communities/people, animals and bush medicines spread over different landscapes of red dirt, green grass, bush land and coastal areas to tell the story of the many ways country can and has healed us throughout our lives and journeys.
